

IP65 PSU for Gobo Pro+ & Solar FX

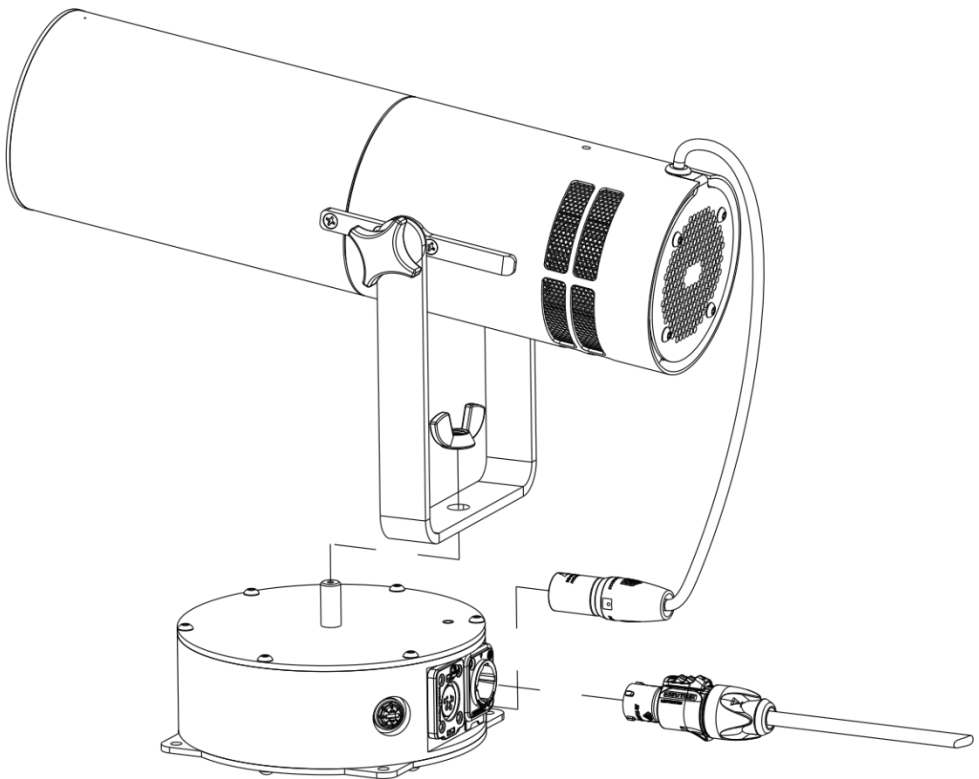

Instruction Manual

Product Code : FG2123

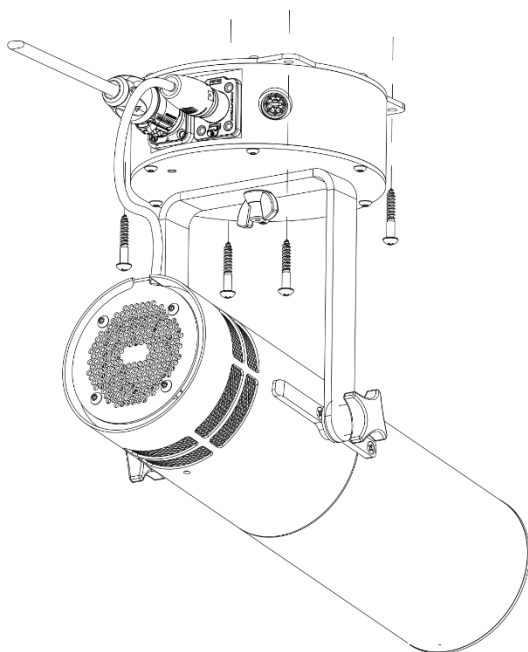

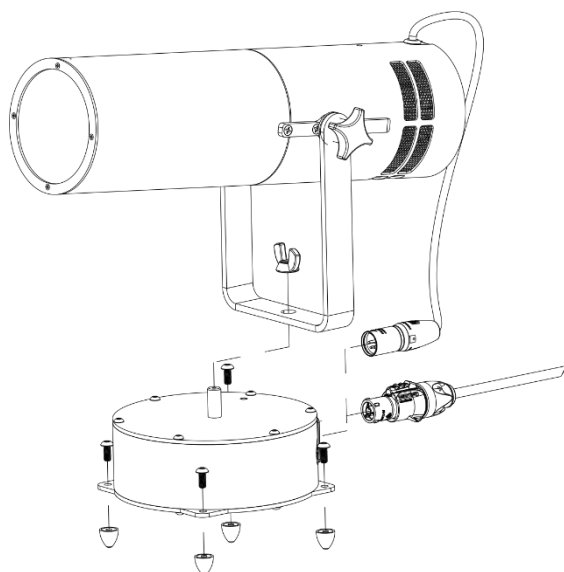

To connect the PSU to a projector, plug the projector lead into the 4 pin outlet on the PSU and the mains lead into the trueCon inlet.

Slide the bracket into the screw and tighten.

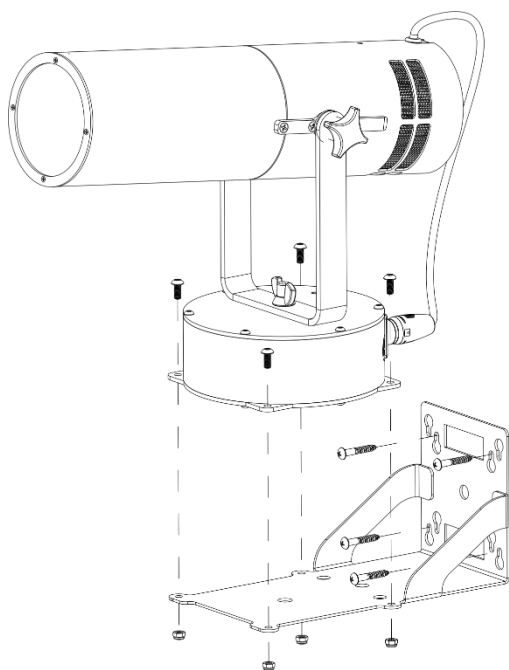

The IP65 PSU can be mounted in a number of different ways.

To have the PSU in an elevated sitting position, connect the feet using the screw assembly provided

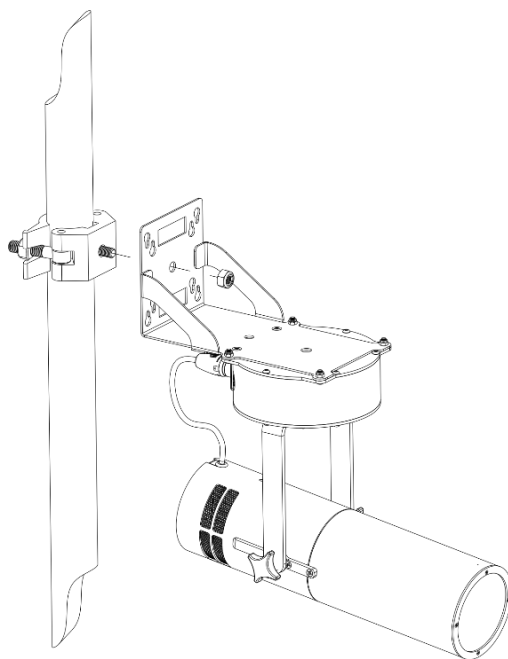

To mount to a ceiling, secure the PSU into place using the screws provided

**To mount to pole, first
secure the IP65 PSU to a
Right Angled Mounting
Bracket**

*Note: The PSU can be fixed to
either side of the bracket*

**Then secure the PSU
Bracket assembly to the
pole**

ELECTRIC SAFETY WARNING

Always unplug appliance from electrical outlet before cleaning
and servicing and when not in use.
